

## Nordplus Junior Project Grobal Goals Enquiry

*The topic of this mobility, Reduced Inequalities and practical nursing students Neea Hämäläinen, Niilo Pylkkänen, Leevi Laitinen and Henna Kaunisto.*

Four social and health care students from Careeria, Neea Hämäläinen, Niilo Pylkkänen, Leevi Laitinen and Henna Kaunisto, participated in a Nordplus Junior project in Estonia, Saarenmaa February 25 – March 1, 2019 together with their teachers Anna Roo and Anita Eglite-Osmane.

The topic of this international meeting was Reduced Inequalities. During the Nordplus week the students worked in international groups together with other students from Estonia, Latvia, Lithuania, Denmark and Island considering the topic from various perspectives. The hosting school, Kuressaare Gymnasium, provided students with interesting program throughout the week. A visiting lecturer, equal treatment commissioner Liisa Pakosta, talked about equal possibilities in a quickly changing world and in the youth center the students heard an interesting presentation held by the local youth police officer. As an outcome of this project the students learnt a lot about the Global Goals and how to be innovative and try to contribute to achieving these important goals.
